CAR
ACCESSORIES

The Company revolt in 1990 year. From the beginning we concern in car accessories manufacturing. Our production means hi-tech and the best materials. High quality - perfectly fit elements. Functionality and modern is main advantage our products. At this moment in our offer we have wide assortment for customers from Poland and Europe.

Since the beginning of 2014 our company has had axial machining center CNC 3 with numerical control.

This machine is used for the production of molds for the CIKCAR rubber carpets.

We own our planning and construction office. We produce these molds according to our own documentation and technology. We have qualified staff and professional machine park. Additionally we fulfil strict rules in the range of surface and processing.

We are able to process the elements that are 1680mm x 890mm. We work on steel, aluminium, duralumin, copper and brass. We use programmes such as SOLIDWORKS and EDGE CAM.

Apart from own production we also provide services.

We invite You to cooperation.
